

Face and eye shield for protection against both mechanical and electrical risks, manufactured from polycarbonate. The double curvature combines full face protection and a wide field of vision with enough space to allow the worker to wear glasses under the shield. Anti-scratch and anti-fog treatment.

The sturdy ABS frame allows for quick and safe fastening on all Ares series helmets and quick and easy transitions from work to rest positions.

Certifications:

- EN 166: mechanical protection against high speed particles and protection against ultraviolet rays;
- GS ET-29 class 1: protection against the risk of electric arc.

Ref.3495 - Spare frame for Ares Electric Shield and Ares Mesh Shield

Ref.3494 - Spare visor for Ares Electric Shield
