

Cylindrical rope bag featuring a self-standing structure and sturdy Tarpaulin PVC 500D construction. Developed to be suspended by the two large handles (max 50 kg), fixed to the harness using the dedicated attachment loop, and carried with the webbing shoulder straps. Roll-up closure, internal loops for fixing the two ends of the rope, transparent label pocket.

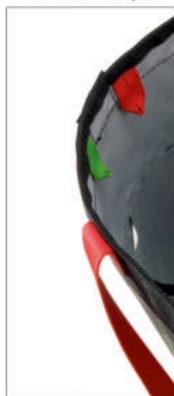

Two versions available:

- **ref.3488:** 20 liters, to hold up to 80 m of 11 mm rope;
- **ref.3489:** 30 liters, to hold up to 120 m of 11 mm rope.
